“ The Florrie was the perfect place to come together with our families to celebrate on our wedding day for so many reasons.

The staff are incredible. Everyone at The Florrie goes above and beyond to be kind, caring and attentive. They helped to make the day truly unforgettable and even though we had a spot of rain, the welcome we received from The Florrie couldn't have been warmer.

The Florence Institute is so significant, for so many reasons and to so many people, that to be able to add our day into the history that the building holds felt special. The Florrie is an institution that cares deeply about the people of Liverpool, and we felt that to be able to contribute to them in any small way would help them to continue doing bigger things within the community.

Thanks for helping to make our wedding day everything we wanted it to be and more.
